Hi Fred,

I did some research regarding the City-County Assistance from the State Treasurer (BARS 336.00.98). The only thing I have found was RCW 43.080.290 which states in part:

> (7) All distributions to local governments from the city-county assistance account constitute increases in state distributions of revenue to political subdivisions for purposes of state reimbursement for the costs of new programs and increases in service levels under RCW 43.135.060, including any claims or litigation pending against the state on or after January 1, 2005.

Since you are unsure on the restrictions of this revenue, we suggest you reach out to the State Treasurer to see what the city can use the funds for.

Thanks,

Mandy
