Hi Wendy,

We received an email regarding a Drupal Security Release, and, as SAO is newer to having our site hosted with WaTech – I wanted to pick your brain a bit.

How are these updates handled and communicated between WaTech and agencies? I'm betting there is a DL that I've not subscribed to, but, just to ensure that we have eyes on things and can report to our Security Team that these things are checked off of the list. If there is documentation that I can look through and answer these questions myself – happy to do so.

Hope you are well!
