That's right. Keep building them the way you are, they should all work.

Thanks, Joseph. So all future infogram-related posts should be good to go?
-Mike

Hi Mike,
The infogram should be working now. There was a patch that needed to be updated.
https://sao.wa.gov/the-audit-connection-blog/2023/34-unresolved-findings-and-12-billion-questioned-summary-saos-audit-washingtons-federal-spending

Let me know if you need anything else.
Thanks!

Details (What do you need?):	Hi there, I stumbled upon a glitch in one of our blog posts that features an embedded infogram media project, and was hoping you could help (blog post URL above). The content doesn't show up and it's giving an error message that the 'the thumbnail dimensions must be greater than zero.' (screenshot attached) This is the only new infogram post we've done since we migrated to Drupal last July, so I'm thinking perhaps something glitched when we updated to version 10? The other blog posts with infograms created earlier that migrated over seem to working fine. Thank you. Regards, Mike
