Hey Al, Mary's Email doesn't say "Mrs." And I would never assume a Mrs. over a Ms. anyway. What the heck? Do you live in the 1960s?

I know for a fact, that Ms. Leider has responded to a large records request with three separate zip file responses. So you are toast on that one.

You can drop my initial request at your own risk. I just made a separate request for all responses to records requests using zip. You have 5 days for an initial response. I did include Mary on that request.

Dear Mr. Banonis

zip files are still to large for email. that is why SAO use SAOshare.

SAO offers you three choices.

thank you

Any and all responses to a public records request where records were supplied in a zip file this year.

Thank you.
