Hi Al,

Just wanted to fwd' you the last correspondence from the citizen you are planning on discussing with Matt in case it is relevant.

Hope you are having a good weekend,
Angélique Thompson
Washington State Auditor

External Email

Here is a pic of a part of an email conversation between Jeana Gillis and Matthew Hawkins on May 1, 2023. Jeana specifically states that the SAO office indeed does have the authority to audit state and

local governments for financial related concerns and are not an enforcement agency...

I am providing this evidence that I possess, that you have admitted what your duties are and the level of authority you have. I did not ask you to arrest anyone or anything to that effect, to warrant you telling me, that I should call the cops. What I have asked for, is for you to investigate the "financial" means for a "state agency" to hire a "foreign company" to "monitor/spy on innocent before proven guilty, tax paying, Americans" who have not given consent to such things. It matters not if this action was sanctioned by the legislature or Jay Inslee, the fact remains that We the People have not consented to the use of funds for the purpose of monitoring Americans in any way. I have not received your names, nor have I received the SAOs oath of office and current surety bond certificate so I may file a proper tort claim. Hope to hear from you soon as this is a very troubling account of actions by a state agency.

God Bless and God Speed
