Hello Mary,

My name is Alexis Gjurasic. I worked as an intern at SAO last summer in the Performance Audit Unit. I would like to request copies of the **two work papers I completed on the Aquatic Land Leases Audit** published a few months ago. I can't recall their exact titles, but one was about past legislation and the other was on other states' management philosophies.

If there's any way I could get copies of these two work papers **in the next 24 hours** I would **greatly appreciate** it. I would like to use them as work samples as I apply to jobs, and I have an application due tomorrow night. Since the legal time frame for records requests is 5 business days and this past weekend was a holiday, I completely understand if it can't be completed that quickly.

Thank you for your help,  
Alexis
