Hi Rachel,

Thank you for providing the comp information you had. We plan to include and update this information in our work.

Regarding the dollar per hour part, we did follow back up with the County and it does appear to be something the system adjusted.

At this time we don't have any further questions, but appreciate your help with answering our questions.

Thank you,

---

**Subject:** Questions

So here are the pictures of how my comp was captured. As you can see in March for 3/2-3/3 I used 20 hours and in February I used 10 hours in 2/28. When I left the county, I still had over 200 hours of comp time.

Did you figure out the dollar per hours that seemed odd? Hopefully you could see it on the report from payroll.

Please let me know if you have any additional questions. Thank you  
Rachel
